

SeeSnake HQ™ Digital Inspection Software

SeeSnake HQ is powerful installed software for monitoring, recording and managing digital inspection data in the field. Record and document your findings, burn DVDs and export to a USB stick.

Monitor and Record

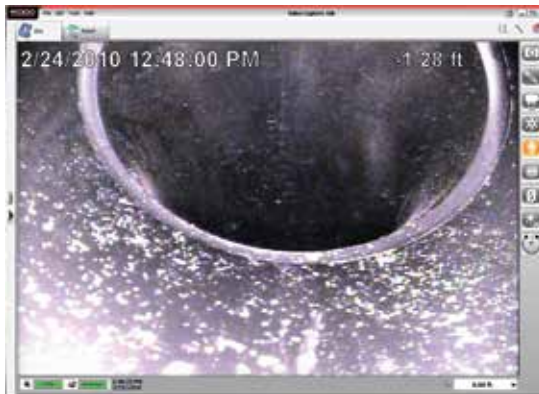

- Use your laptop as a large screen monitoring display.
- Record videos and image directly to your hard drive.
- Record your observations and control your inspection camera using the power of a laptop.

Report

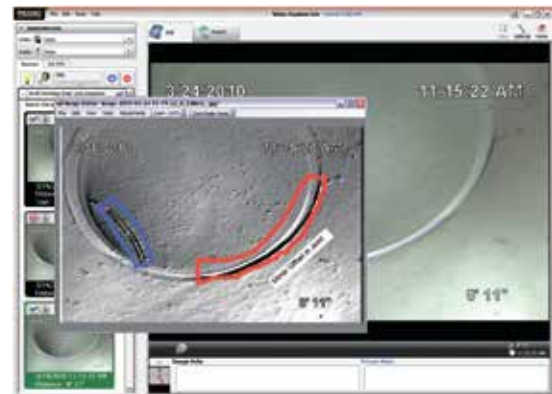

- Document your observations and create a report of your findings.
- Store details about the job including contact information, observations, recommendations and notes.
- Customize the appearance of your reports to fit your company.

Delivery

- Burn DVDs for your customers or hand them a USB stick.

Monitor And Record Your Inspections.

Enhance And Edit Captured Footage.
